Mentors and mentees will be introduced and paired in November at the Mentor Program Breakfast Kick-Off. The program encourages the mentors and mentees to meet at least once per month, either in-person, via phone, or remotely via Skype/Webinar/FaceTime. Take advantage of meeting for coffee, lunch, dinner, or at your mentor's work place to experience different settings. Students get out of your comfort zone and leverage your mentor to position yourself for your target companies. In June, a 1-page statement is due from students to summarize your experience from the program.
